

## REMARKS

Receipt is acknowledged of the Examiner's Amendment of claim 4. However, the Examiner's Amendment did not correct all the informalities of claim 4, as discussed. Accordingly, claim 4 has been amended to delete "a" before "time constants" and "an" before "intensities". Thus, claim 4 has been corrected in the manner discussed with the Examiner on March 16, 2009 so as to recite "a first memory means in which time constants and intensities of afterglow including a plurality of predetermined components are stored".

It is submitted the foregoing amendment does not change the scope of claim 4 as amended in the Examiner's Amendment and overcomes informalities in the claim. Thus, the amendment should be entered.

Respectfully submitted,
